

# Privacy Policy

Maitop Games built the Clean Games Subscription & Membership as a Commercial subscription service. This SERVICE is provided by Maitop Games and is intended for use as is.

This page is used to inform visitors regarding our policies with the collection, use, and disclosure of Personal Information if anyone decided to use our Service.

If you choose to use our Service, then you agree to the collection and use of information in relation to this policy. The Personal Information that we collect is used for providing and improving the Service. We will not use or share your information with anyone except as described in this Privacy Policy.

The terms used in this Privacy Policy have the same meanings as in our Terms and Conditions, which is accessible at [MaitopGamesApp] unless otherwise defined in this Privacy Policy.

## **No in-game advertising or data reselling**

All our game labelled under the Clean Game licensed does not rely on any kinds of advertising. Therefore you can enjoy the games you like without interruption. Also, we won't ask you for any sneaky permission to collect more data outside of what we describe in this human readable document.

In full transparency, we have decided at the end of 2018 to put an end to game revenue via advertising. Advertisers kept asking for more and more permission via their SDK (packages to integrate their ads) and we felt that things were getting out of control.

We have decided instead to move on a subscription model where we would give access to all of our content for a price. This way, we will make sure that our game remains what we want them to be, games! Not a marketing platform to sell you stuff or a data vacuum to resell all information about you to other advertisers.

## Information Collection and Use

For a better experience, while using our Service, we may require you to provide us with certain personally identifiable information, including but not limited to In-game behavior, Advertising ID, In-game analytics. The information that we request will be retained by us and used as described in this privacy policy. Here are some example of why we use that kind of information:

- **In-game behavior / In-game Analytics** -- Game balancement,, improve our game but also make sure our games are fun. There is also a lot of bugs that we can resolve faster because of that
- **Advertising ID** -- Sometimes, we rely on advertising to attract users to our game. Unfortunately, we have to collect this ID to make sure you are a real person. Trust us, we would prefer to invest the money on content, but life is what it is! If you like the game, make sure to rate it, share it with your friends and maybe someday we won't have to pay for advertising!

The app does use third-party services that may collect information used to identify you.
